THE ASCENSION OF HUMANITY

The spiritual core of your heart is connected into the most expanded and unconfined domains of your consciousness. The Ascended Masters who already live within these unlimited domains are calling us to awaken our hearts, which hold our innate capacities for mastery. The true essence of the great Love that is encoded within every heart is not confined within a closed blueprint or within a pre-determined set of circumstances. The heart's outreach is limitless and its capacity to give and receive love is simply a natural expression of its spiritual composition. The heart is intimately aligned with the unified field of living information that is connecting all of life within a pulsing, vibrating field of ever-expanding consciousness. The more in line you are with the unlimited nature of your heart, the greater your capacity to live in union with the Heart of Source. Everyone is ultimately yearning for this reunion.

Mother Mary and Quan Yin:

The heart was truly designed to be the fulcrum of every soul's being—a place where one could always remain aligned with its true inheritance as love. Eventually the soul began to place the majority of its attention into the mind, making it the director of its life. Living under the control of the mind has become so ordinary that very few of you see how this shift from the heart to the head created a fear-based sense of security that led to the creation of all the false beliefs that have been sustaining the illusions of separation in your world for thousands upon thousands of years.

*All the pain you see in your world
has come from making the mind
more important than the heart.*

When enough of you are willing to courageously remove the armoring that has been placed around your hearts as a means of falsely protecting you from this collectively created pain, life on your planet will become love-based rather than fear-based. Your heart was created with very specific frequencies that contain sacred rays, sounds and qualities to assist you in walking the Earth as a living Christ, a Buddha, a Master. The Heart was designed to be the portal through which the fullness of your Presence can truly be embodied. Its rhythmic, pulsing dance with the universe is the key to living your mastery. Your heart needs to be opened to the core of its original encoding—an encoding that was given to you so you would always have an eternal connection to Source. Self protection and preservation eventually created so much armoring around the heart that almost all human beings forgot how to love unconditionally, forgot how to experience the depths of love that are possible within your physical world and bodies.

*Only when your heart is open,
will you experience true Union with the Divine,
both within yourself and with another.*

Even though love is the ultimate portal to your freedom, it is not the kind of love that most human beings have ever experienced. Love in your world is mostly head-oriented. It is designed to bring satisfaction to the body, or to bring someone into your life who will share the same goals and aspirations so you can create your shared environment, or it is a means for healing old childhood wounds and, therefore, an attempt to be re-parented with more love and acceptance. These are all valid expressions of care and need, yet they are not true demonstrations of Divine love.

Only a fully opened heart has the capacity to remember its Self as Love, and it is this *remembrance* that is being penetrated into the hearts of humanity and will continue until 2012. Great numbers of you are awakening into vastly new dimensions of your being, and yet we encourage you to keep expanding your hearts no matter how much you may sense that you have arrived at some undefined goal of enlightened awareness. As humanity opens more and more of its collective heart, you are starting to move into a greater alignment with the ascension of your Earth. Your planet is destined to be the Spiritual Heart Center of your galaxy and thus humanity, the Earth, and your galaxy are all ascending simultaneously.

Ascended Master Kuthumi:

The transmissions that many of us are offering within the Courses found in *Walk the Earth as a Living Master* have been created to prepare your hearts, minds and physical bodies for ascending into Unity or Buddha/Christ Consciousness. Some of you may associate that level of consciousness with the 5th Dimension, yet it is much more than that. For once you move into Union with the

crystalline nature of your universe, you will find that you are not confined nor defined by any particular dimension. Your lower bodies may be more comfortable working in certain dimensions, yet your consciousness will be free to explore more than you ever imagined life to be.

As you align with the higher grids of your consciousness, you will have greater access to the vast crystalline libraries that are simply and naturally created by the thoughts and feelings of those who are living, or who have lived, in the dimension you are exploring. These *libraries* are research centers for the soul's education. The crystalline substance that holds this information together is composed of particles of light, which are reflective and fluid-like in their composition. This crystal-like substance records everyone's thoughts and feelings, thereby creating an ever-changing matrix of information around the body and around the planet.

**You now have a golden opportunity
to move out of the maze of pain, fear and separation
that has been driving the collective consciousness of your world
since Atlantis.**

My Councils include large numbers of souls, both on and off planet, whose passion is centered on globally educating those who are sincerely ready to move beyond the confines of the third and fourth dimensions. This is not about anyone *leaving* the Earth, yet rather about choosing to *live* on the Earth as a more conscious, ever-evolving living master. Survival will no longer be a priority or even a viable option. This alone is going to free up thousands of years of ancestral programming. All of the energies that humanity

has been using to ensure its survival can now be focused on supporting the actualization of one's higher purpose.

We are here to assist you in potentializing every creative expression of your life on Earth—music, art, science, health, economics, government, parenting and all that will support your new Golden Age. Completely new and innovative ways of educating your children and your adults are beginning to sweep into your world. Some people will feel threatened by these new systems because their control options will start to be lessened and finally eliminated all together. They will no longer be able to make humanity do things that are out of harmony with the Presence. Many systems that have been controlling your world will become non-functional, yet you are the determinate factor. You must get together with other like-minded and like-hearted individuals who know they are here to create these new systems—financial, political, educational, or whatever else one is motivated by love to create as part of your new Golden Age.

These new projects must be attractive and strong enough to magnetize those who are meant to support its creation. Many great minds and hearts of humanity came together on the inner planes to create what they would like to see manifested in your world—that would benefit the greatest number. These souls are now finding one another. My global schools are designed to bring about the new educational systems of your planet. The curriculum is for all souls who want to embody more of their mastery and more of their capacity to live in Unity Consciousness, as it is from there that you will offer your gifts to the world through your communities.

Walk the Earth as a Living Master is an example of one such school. It is a prototype created for practicing what will eventually

become much more commonplace in your world—living in oneness with the Presence and in Unity Consciousness with all of life. As you each align with your naturally-inherited mastery, you will be able to witness it in everyone else, until sooner than you might imagine, equality will replace competition and the appreciation of each other's talents will replace jealousy.

I am stimulating and amplifying the Gold Ray of Wisdom within each of your hearts, thus awakening the part of you that truly remembers your origin and your reason for being here *specifically* during these times of the Great Shift. Your new Golden Age was set into motion over many thousands of years by many great Avatars and Self-realized beings who volunteered to come to Earth to show humanity what it looks like to be ascended and free while still walking the Earth. Yet these great ones cannot shift your consciousness for you. They are calling you to realize your mastery while walking the Earth, and to awaken within the Self that is already ascended and free. For truly, beloveds, how else can the tide turn for the whole of humanity? How else can the Golden Age become a living reality on the earth plane?

*These times are presenting you
with the greatest opportunity you have ever been given
to realize your mastery and your freedom
in a single lifetime.*
